Blackburn, Susan Tucker. St. Louis, MI: Saunders Elsevier , 2007. 3rd ed. (Book) — 1 copy, [1 available](#)

Audience: Professional
Agency: BC Children's and Women's
Location: Study & Learning Commons
Call Number: REF GH 100 BLA 2007

“ This text details the changes in physiology that occur throughout all major periods of the perinatal experience - prenatal, intrapartum, postpartum, and neonatal. This text provides a solid foundation for assessment and therapeutic interventions, featuring an emphasis on the evolving interrelations...
